### DETAILED ACTION

1. Claims 1-22 are allowed.
2. The following is an examiner's statement of reasons for allowance:

Independent Claim 1, is allowed over Prior Art, since the cited references taken alone or in combination do not teach or suggest *the predetermined bias voltage including a DC component and an AC component and being based on a flying-height spacing of the slider body*. Independent Claim 15, is allowed over Prior Art, since the cited references taken alone or in combination do not teach or suggest *the predetermined bias voltage including an AC component and a DC component, wherein the DC component is based on a minimum variation of current that flows on and off the slider body as the DC component is varied*. Independent Claim 16 is allowable over Prior Art of Record, since the cited references taken alone or in combination do not teach or suggest: *the predetermined bias voltage including an AC component and a DC component wherein the DC component is based on a detected level of interference between the slider body and the hard disk*.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

### Conclusion

The prior art made of record and not relied upon is considered pertinent to applicant's disclosure: Feng et al. (US 6,529,342 B1); Kuroda et al. (US 5,546,374); Muranushi et al.
